September 2018

Studying for any qualification is a commitment, both in terms of time and funding. We have taken care to ensure the Complete Learning Package provides you with the training and support needed to pass, at the same time as providing value for money.

What's Involved?

There are 6 mandatory units within this qualification all of which are focused on educational establishments:

-  **Preparing for Audit**
How to fully prepare for an external audit by understanding the process involved and the detailed checks carried out by auditors.
-  **Long-Term Financial Planning**
How to plan for long-term strategic objectives including the preparation of 'what if' scenarios and consideration of limiting factors.
-  **Financial Performance**
How to analyse financial performance using a range of management accounting tools and techniques.
-  **Marketing Strategy**
How to develop a marketing strategy to define brand and goals, develop pupil recruitment and maximise income generation.
-  **Business Process Re-engineering**
How to analyse and redesign workflows in order to optimize end-to-end processes and automate non-value added tasks.
-  **Providing Value For Money**
How to develop a procurement strategy to ensure value for money and the achievement of educational objectives.

Each unit is published on the Regulated Qualification Framework and provides practical, real-world accounting and finance knowledge that you can put to use from day one.

Entry Requirements

There are no entry requirements to take this qualification although Level 4 Managing Finance in Education would be beneficial. Level 5 is suitable for those already working in, or aspire to work in, a strategic finance management role within an educational establishment.
