Studying for any qualification is a commitment, both in terms of time and funding. We have taken care to ensure the Complete Learning Package provides you with the training and support needed to pass the qualification, at the same time as providing value for money.

What's Involved?

There are 7 mandatory units within this qualification all of which are focused on educational establishments:

-  **Managing Assets**
How to manage fixed assets including the upkeep of the asset register and formulation of asset management plans.
-  **Managing Cash**
How to plan, forecast, monitor and control cash flow to ensure liquidity and make effective use of surplus cash.
-  **Managing Budgets**
How to set, profile, monitor, control and report on the school budget to contribute towards the achievement of educational objectives.
-  **Generating Income**
How to maximise financial resilience through a range of income generating activities including bid writing and grant submissions.
-  **Financial Statements**
How to produce the Statement of Financial Activities, Balance Sheet and Statement of Cash Flows along with supporting notes.
-  **Managing Procurement**
How to ensure effective procurement processes are in place to drive efficiencies and ensure value for money.
-  **Managing Projects**
How to plan and manage projects to ensure they are delivered in accordance with organisational needs.

Each unit is published on the Regulated Qualification Framework and provides practical, real-world accounting and finance knowledge that you can put to use from day one.

Entry Requirements

There are no entry requirements to take this qualification, although Level 3 Administering Finance in Education would be beneficial. Level 4 is suitable for those already working in, or aspiring to work in, a finance management role within an educational establishment.
